PROFESSIONAL SUMMARY

Self-taught and highly motivated MERN Stack Developer with hands-on experience building full-stack applications using React.js, Node.js, Express.js, and MongoDB. Strong understanding of RESTful API development, JWT-based authentication, scalable application architecture, and deployment workflows. Passionate about writing clean, maintainable code and solving real-world business problems.

PROJECTS

Finera – Fintech Loan Management System Backend GitHub — Frontend GitHub
Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Docker, AWS, Amplify

- Developed a full-stack fintech loan management system handling loan applications, approvals, EMI scheduling, and payments.
- Implemented secure authentication and authorization using JWT tokens.
- Built RESTful APIs for managing users, loans, transactions, and financial records.
- Integrated Cron Jobs for automated scheduled background tasks.
- Containerized the backend using Docker and deployed it on AWS EC2.
- Hosted the frontend using AWS Amplify with CI/CD integration for automatic deployment.
- Implemented CI/CD pipeline using GitHub Actions for backend deployment.
- Designed protected routes and responsive UI using React.

E-Commerce Website (WristStyle) GitHub Link
Tech Stack: Node.js, Express.js, MongoDB, EJS

- Built a complete e-commerce platform with authentication and session management.
- Implemented product listing, cart functionality, and admin dashboard features.
- Used MongoDB for structured product and user data storage.
- Developed role-based access control and secure login system.

EDUCATION

Brototype, Kochi, Kerala *May 2024 – Present*
MERN Full Stack Development Training

Kerala University *2013 – 2015*
MBA in Finance and HR

Kerala University *2010 – 2013*
Bachelor of Business Administration (BBA)

TECHNOLOGIES

Languages: JavaScript, TypeScript, HTML, CSS, SQL

Frontend: React.js, Bootstrap

Backend: Node.js, Express.js, JWT

Database: MongoDB

DevOps & Cloud: Docker, AWS (EC2, S3), AWS Amplify, CI/CD (GitHub Actions)

Tools: Git, GitHub, Postman

Others: REST API, DSA, Figma
